Assignment 1: Introduction

Ana Andino

OVERVIEW

This exercise accompanies the introductory material in Environmental Data Analytics.

Directions

1. Rename this file `<FirstLast>_A01_Introduction.Rmd` (replacing `<FirstLast>` with your first and last name).
2. Change "Student Name" on line 3 (above) with your name.
3. Work through the steps, **creating code and output** that fulfill each instruction.
4. Be sure to **answer the questions** in this assignment document.
5. When you have completed the assignment, **Knit** the text and code into a single PDF file.
6. After Knitting, submit the completed exercise (PDF file) to the appropriate assignment section on Canvas.

1) Discussion Questions

Enter answers to the questions just below the >Answer: prompt.

1. What are your previous experiences with data analytics, R, and Git? Include both formal and informal training.

   Answer: I have had previous interactions with data analysis but I have not used R or Git before this class. I am very excited to learn.

2. Are there any components of the course about which you feel confident?

   Answer: I m taking this course as starting from zero. However, I am very familiar with types of data for instance as I have worked with primary and secondary data - mostly quantitative.

3. Are there any components of the course about which you feel apprehensive?

   Answer: Learning in a fast pace to code in R since I would like to start coding for research purposes.

2) GitHub

Provide a link below to your forked course repository in GitHub. Make sure you have pulled all recent changes from the course repository and that you have updated your course README file, committed those changes, and pushed them to your GitHub account.

   Answer: https://github.com/anaandino

3) Knitting

When you have completed this document, click the `knit` button.This should produce a PDF copy of your markdown document. Submit this PDF to Canvas
